-

RELEVANT EXPERIENCE

Intermediate Frontend Developer, Asics Apps | Remote

Sept 2021 - Oct 2024

- Built component-based architecture React SPA (TypeScript and Remix.js) powering Race Roster's CRM feature, enabling onboarding of large-scale and elite events.
- Scoped and implemented new server-side functionality in the company's federated supergraph GraphQL API.
- Developed and updated features for the core registration platform, mainly dynamic data-driven forms involving time, currency, and date handling in line with evolving business priorities, improving performance and reliability.
- Collaborated on project to refactor legacy jQuery pages into maintainable and well-architected micro-front-ends built with React, GraphQL.
- Created pixel-perfect, reusable UI components based on Figma designs for the company's internal design system, improving consistency and collaboration across teams and company applications.
- Participated in code reviews, agile planning, and documentation to support cross-functional development efforts.

Fullstack Developer, Art & Science | Toronto, ON / Remote

Aug 2020 - Aug 2021

- Developed and maintained custom WordPress websites, including building themes, plugins, and responsive front-end interfaces tailored to client needs.
 - Handled fullstack responsibilities including CMS customization, feature development, deployments, and accessibility audits, contributing to key maintenance contracts.
 - Enhanced legacy PHP applications by resolving bugs, improving performance, and introducing new features to ensure long-term maintainability.
 - Optimized website performance by reducing load times and improving accessibility to meet modern web standards.
 - Partnered with designers to deliver user-focused solutions that aligned with both project scope and budget limitations.
 - Led demos and client-facing presentations, strengthening relationships and aligning development goals with stakeholder expectations.
 - Mentored and onboarded an intern to own future deployments and ongoing support.
-

EDUCATION
